### "NO IRISH NEED APPLY."

This Advertisement Meets With Indignation At Butte.

BUTTE, Mont., April 17.—An advertisement for a servant appearing in the "Want Ad" columns in a local paper and stating that "Irish need not apply" was considered last night at a mass-meeting called at the Newboys Club rooms and attended by representatives of the different Irish societies in Butte. The advertisement was characterized as an open insult to the Irish race and reference was made to the part played in American and local history by the sons of Erin. Attention was called to the fact that there are 10,000 of the race in Butte. Among the speakers were Mrs. S. S. McCarthy, Mrs. Aldridge, Miss Anna Sullivan, J. P. Moriarty and M. D'Donoghue. A committee was appointed to deal further with the matter.

### Better Than Spanking

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, Notre Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

## COLLEGE ALUMNI WOULD AID ALMA MATER

### CORNELL STUDENTS PROPOSE PLAN TO AID THE INSTITUTION ALONG.

NEW YORK, April 17.—Cornell Alumni have organized a body to be known as the Cornellian Council whose purpose shall be to promote systematic donations to the university on the part of the alumni. The movement was started last fall but the organization was not perfected until yesterday, when a meeting was held of the Cornell alumni in this city. In a nutshell, the plan is to induce every alumnus, or former student, to give a stated sum to his Alma Mater. This is similar in a general way to the plan in vogue in Princeton, Yale and Harvard.

According to the preliminary arrangements of the Cornellians, the council shall be composed of 50 members, ten at large and one appointed from each of the last 40 classes. Each year the newest class names a member who displaces the member from the oldest class. The terms of office are for five years and the members are appointed by classes at each of their five year reunions. There is to be an apaid secretary to do the soliciting. This work will be supervised by an executive committee of five members.

Princeton's systematic giving in the last four years has totaled more than \$4,000,000 and as Princeton has approximately 8,000 graduates, or former students, while Cornell has 18,000 or more the Cornellians are sanguine as to the result of their project. It has to raise at least \$50,000 in the first year.

### NEWS AND NOTES OF SPORT.

Jim Steward and Ed Casey have been matched to box at Bridgeport, Conn., April 28.

The Memphis team made a nice showing against the big leaguers during the practice games.

Jem Driscoll who is in London says that he has no intention of settling in America as reported.

Al Buckenberger, the old Boston and Rochester manager, has opened a billiard parlor in Rochester.

Billy Lander, lightweight champion of Canada, and Jimmy Potts of Minneapolis will meet at Calgary April 26.

Catcher Jack Warner, one of New York's leading pioneers, is working hard to give Galveston a winning ball team.

Kip Selbach, the old major leaguer, is on the water wagon. He has retired from the game and purchased a spring water plant.

The Ohio and Pennsylvania league has arranged a schedule calling for 126 games, with May 6 and Sept. 11 as the opening and closing dates.

President Dreyfuss of the Pittsburgh Pirates says the "Black Hand" causes him no worry, but Honus Wagner's "bum hand" has his goat.

If 228 former Eastern league players are scattered among 81 clubs in 19 circuits this season how soon will Johnny Kling join the Cubs?

Vyskocil, the Kansas City player, will have to sit down. There's nothing to that Vyskocil name now that one Wojalewicz has joined the Burlington, Iowa, team.

Proof has been furnished by Managers McAleer that "Rube" Waddell was with the Browns in Texas during the time that Chief Crazy Snake was so active in Oklahoma.

Merkle of the Giants says that he doesn't mind being roasted by major league fans, but when he is called "bone head" out in the bushes it certainly arouses his anger.

Manager Percy Stetler has seventy men under contract for his Trenton team in the Tri-State league. Percy has to release only fifty-four of them in order to pick a winning team.

In the inter-league series at Philadelphia Pitcher McQuillan of the Phillies had the Athletics looking like a lot of section hands that had missed the pay car.

Jack Dunn must have a pretty fast team in Baltimore. Holding the New York Giants to a 3 and 3 tie the two games in succession shows that the Orioles know some baseball.

Alec McLean has a thousand dollars in real money to bind a challenge from Sandy Ferguson to meet any heavyweight in the world. And no color line in the defy at that.

George Moriarty, the former Highlander who is now with Detroit, is a writer of poetry and songs. Well, Hugh Jennings needs some new music for coaching purposes and George Mullin would look just lovely in poetry.

### STEAMER ASHORE.

SEATTLE, April 17.—Loosing her bearings in a dense fog this morning, the freight steamer H. W. Starrett went ashore at Three Pints, half way between Tacoma and Seattle while en route to Tacoma. An attempt will be made to get her off at high tide.

### A "HOMING" DOG.

Canine Finds His Way From Milwaukee To Chicago.

CHICAGO, April 17.—"Fitz" a stray dog that has been cared for by the Beta Theta Pi fraternity at Evanston during the last few weeks, evidently thinks the boys are good hosts for after being carried to Milwaukee in an attempt to lose him, he has returned footsore and hungry. He covered the distance of seventy-odd miles in less than 24 hours.

After "Fitz" had shown a disposition to attack strangers the fraternity boys determined to get rid of him, and gave him to a student who took the dog to Milwaukee and dropped him.

REO Five Passenger 22 H. P. Touring Car, Lowest Priced Five Passenger Touring Car in the World. Complete with Top, Gas Lamps, Tail Lamp and Horn F. O. B. Portland \$1150

Remember this is not a four passenger car, but a full sized standard five passenger car with power enough to carry five large people any place that any automobile will go. It is equipped with a detachable tonneau which can be detached in a few minutes making it into a roadster WITH POWER TO BURN. This is not a new and untried sensational car, which no one not even the manufacturers know how it is going to stand up, neither is it assembled from parts gathered from the four corners of the United States, but is a car which has been known and run for years in every part of the world and is manufactured by R. E. Olds, the father of the popular priced automobile.

The Reo Company bought material for 6000 of these cars early last year when the steel mills were looking for business at a price which enabled them to put this car out for \$250 less than it was built last year. Their competitors were afraid to take such a chance and consequently are asking you the same old price as before, you get the advantage of the nerve and business foresight of the Reo Motor Car Company when you buy a Reo. 2000 Reo cars on the Pacific Coast have proven this to be the car for our rough western roads and in country districts where there are no repair shops. The reason is that they are built as simple as it is possible to build an automobile and every part has been tried out for several years and all the "touchy" parts have been illuminated. All we

ask you to do with the REO IS TO GIVE IT PLENTY OF OIL AND LEAVE IT ALONE AND IT WILL DO THE REST. ASK ANY OF THE HUNDREDS OF OWNERS OF REO CARS THROUGHOUT THE NORTHWEST WHAT THEY THINK ABOUT THE REO.

Have You Heard About the Reo Two Passenger 10 H. P. Runabout for \$550. F. O. B. Portland?

This is the same reliable car that you have seen so busily running about the streets for the last five years and it has proven itself the most economical car in the world by winning nearly all of the National and International economy prizes. Mr. J. H. Yeomans, Spokane, Wash., has run one of these cars three years, his entire expense for gasoline and everything for this car has been \$69, what do you know about that, \$23 a year for running a Reo Runabout? This car has been run 4500 miles in this time odometer measurement.
